THE Osborne Dental Group, which practices in Jesmond and Stanley, has successfully expanded, so that it can open its doors to more NHS patients. The practices offer the full range of NHS treatments, as well as private work, including cosmetic dental treatments.

Principal dentist Dr Onkar Dhanoya said: "We are in the unique position of being able to offer our patients the full range of NHS and private treatments.

"We provide a treatment plan that gives patients the choice of treatments, available on the NHS and privately. We've found that this is the most cost effective way for patients to achieve dental fitness and receive the exact treatment they want."

Osborne Dental in Osborne Road, Jesmond, has recently completed the building of three new purpose-built surgeries, including a dedicated implant suite, which is a centre of dental excellence. The surgeries are beautifully refurbished with state of the art dental equipment.

Dr Onkar Dhanoya says: "I believe that the accessibility of NHS dental services is so important for people in the North East. At Osborne Dental and Stanley Dental we are proud to be able to offer all our patients an exceptional standard of dental care, both for NHS and private treatment.

"Our highly qualified team continually further their personal education and dental training to provide patients with an excellent standard of oral health care. As a dental group, we are committed to offering an unrivalled standard of care both for NHS and private treatments."

Osborne Dental provides the full range of private dental treatments, including dental implants and Invisalign clear braces.

### DENTAL IMPLANTS

If you are missing one or more teeth, dental implants may be the answer. A dental implant is an artificial tooth root, placed in the position where a missing tooth used to be. They are made from a range of materials that are compatible with your body. This treatment may be

UNIQUE POSITION: Osborne Dental Group can provide both NHS and private treatments, including cosmetic treatments

a suitable alternative to dentures if you:

- Have a loose or ill-fitting denture
- Experience discomfort when eating
- Lack the confidence to speak, smile, and eat, because of your denture

To help decide if dental implant treatment is right for you, get in touch with Osborne Dental to arrange a free consultation with Dr Dhanoya.

Dr Dhanoya has extensive experience in providing dental Implant treat-

ments. He has been appointed Regional Dental Tutor by Astra-Tech Dental to mentor dental colleagues who want to provide this treatment.

Current research suggests that, with appropriate oral care and regular maintenance, your dental implant should last a lifetime.

### INVISALIGN CLEAR BRACES

You no longer have to be stuck with teeth that are crowded and out of line – and you don't have to wear the traditional metal train-track braces to correct them. With Invisalign clear braces, teeth can be aligned discreetly.

Invisalign treatment consists of a series of clear aligners that you change

about every two weeks. Each aligner is individually manufactured with exact calculations to gradually move your teeth into place and produce the perfect smile. This allows Osborne Dental to provide patients with a style of orthodontic treatment that doesn't interfere with their day to day life.

Dr Dhanoya has provided orthodontic treatment, using both fixed and removable appliances, for more than 20 years.

Osborne Dental's dental surgeons have received special training in the Invisalign treatment system and have many years of experience in successfully providing this treatment.

Dr Max Wassef, a dental surgeon at

Osborne Dental, has been awarded the Invisalign Platinum Practitioner 2009 Award by Invisalign in recognition of advancing the field of orthodontics.

Dr Dhanoya said: "Our patients have been very happy with the Invisalign brace system, especially as our dental surgeons always provide a free initial consultation to discuss a patient's suitability for the treatment."

In 2009, Osborne Dental was short-listed a BDA Good Practice Scheme Practice of the Year.

Dr Dhanoya said: "It is great for the dental team at Osborne Dental to be acknowledged for their commitment to providing high quality dental care."
